

Speaker of Session Albuquerque

FUTURE OF ENERGY

Helen Steiniger works as Advisor to the CEOs of Next Kraftwerke in Cologne, Germany. Her research focus is on the development of electricity markets and the opportunities of digital technologies for building a sustainable energy system. She has been working in the company since 2015 in different positions.

Ms. Steiniger holds a M.Sc. in Environmental Studies and Sustainability Science from Lund University, Sweden, and a B.Sc. in Business Administration from the University of Mannheim, Germany.
